# ANNUAL INDEX

## AUTHORS

- Abbas GM**, 867  
**Abemayor E**, 248  
**Agrawal A**, 1093  
**Ait Amer J-L**, 592  
**Alavi S**, 248  
**Albers FWJ**, 946  
**Al-Dhahri S**, 381  
**Alipour F**, 550  
**Al-Sebeih K**, 381  
**Amatsu M**, 41  
**Amin MR**, 514  
**Amirali A**, 502  
**Ammar ME-SM**, 290  
**Andersen PE**, 613  
**Andrews RJ**, 543  
**Ang AH-C**, 1077  
**Antonelli AR**, 820  
**Appenroth E**, 335  
**April MM**, 340  
**Araki K**, 76  
**Arnay-de-la-Rosa M**, 1080  
**Arnold W**, 897  
**Averill DB**, 729  
**Axford SE**, 1099  
**Azadeh H**, 606  
  
**Baatenburg de Jong RJ**, 627, 941  
**Babin RW**, 494 (book review)  
**Balaban CD**, 243  
**Balatsouras DG**, web site only  
**Baldwin CT**, 875  
**Ballow M**, 442  
**Bamborschke S**, 581  
**Banerjee CK**, 364  
**Bankier A**, 624  
**Barakate MS**, 453  
**Barbieri M**, 425, 646  
**Bar-Meir E**, 486  
**Barthel SW**, 20  
**Batsakis JG**, 1169 (book review)  
**Bauman NM**, 1137  
**Baumann C**, 897  
**Baumann I**, 912  
**Becker M**, 464  
**Beek FJA**, 326  
**Belafsky PC**, 1114  
**Benjamin B**, 617  
**Berges C**, 388  
**Berke GS**, 543, 815  
**Berkowitz RG**, 624, 952  
**Bernstein JM**, 442  
**Berry DA**, 470  
**Bhatt KA**, 1147

## SUBJECTS

**Abductor spasmodic dysphonia**

Assessment of posterior cricoarytenoid botulinum toxin injections in patients with abductor spasmodic dysphonia, 406

**Abscess**

Deep neck abscess: retrospective review of 210 cases, 1051

**Acquired subglottic stenosis**

Acquired total (grade 4) subglottic stenosis in children, 16

**Adenoid**

Bacteriology of adenoids and tonsils in children with recurrent adenotonsillitis, 844

Central incisor width as predictor of appropriate curette size in adenoidectomy, 841

Detection of intracytoplasmic cytokines by flow cytometry in adenoids and peripheral blood lymphocytes of children, 442

**Adenoid cystic carcinoma**

Adenoid cystic carcinoma of base of tongue, 248

**Adenoma**

Ectopic growth hormone-secreting pituitary adenoma in sphenoid sinus, 99

**Airflow**

Aerodynamic profiles of hemilarynx with vocal tract, 550

Airflow resistance of airflow-regulating devices described by independent coefficients, 639

**Airway**

Concurrent glottic and tracheal stenoses: restoration of airway continuity in end-stage malignant disease, 349

Diagnosis of recurrent intermittent airway obstruction ("recurrent croup") in children, 600

Ludwig's angina: report of case and review of management issues, 453

**Allergy**

Enhancement of submicroscopic damage of nasal epithelium by topical allergen challenge in patients with perennial nasal allergy, 236

Immunopathologic study of chronic sinusitis: proposal for atopic and non-atopic IgE-activated mast cell allergic inflammation, 447

**Anaerobe**

Correlation between microbiology and previous sinus surgery in patients with chronic maxillary sinusitis, 148

**Aneurysm**

Aneurysmal bone cyst in sphenoid bone: treatment with minimally invasive surgery, 331

Petrous internal carotid artery pseudoaneurysm due to gunshot injury, 491

**Angina**

Ludwig's angina: report of case and review of management issues, 453

**Angioedema**

Angiotensin-converting enzyme inhibitor-induced angioedema: multicenter review and algorithm for airway management, 834

Changing trends in angioedema, 701

**Angiotensin-converting enzyme inhibitor**

Angiotensin-converting enzyme inhibitor-induced angioedema: multicenter review and algorithm for airway management, 834

**Anosmia**

Screening of olfactory function with four-minute odor identification test: reliability, normative data, and investigations in patients with olfactory loss, 976

**Anterior window laryngoplasty**

Anterior window laryngoplasty: new anatomic approach for posterior glottic and subglottic stenosis, 519

**Antibiotics**

Acute otitis media in Brazilian children: analysis of microbiology and antimicrobial susceptibility, 662

Effect of mitomycin-C on vocal fold healing in canine model, 25

Mitomycin: effects on laryngeal and tracheal stenosis, benefits, and complications, 1

**Antibody**

Concentrations of serum immunoglobulins and antibodies to pneumococcal capsular polysaccharides in patients with recurrent or chronic sinusitis, 675

Presence of autoantibodies in sera of Meniere's disease, 425

Transforming growth factor and neutralizing antibodies in subglottic stenosis, 393

**Antigen**

Comparison of CYFRA 21-1 and squamous cell carcinoma antigen in detecting nasopharyngeal carcinoma, 775

**Apnea**

Quantitative assessment of pharyngeal airway by dynamic magnetic resonance imaging in obstructive sleep apnea syndrome, 183

**Apoptosis**

Botulinum toxin type A induces apoptosis in nasal glands of guinea pigs, 1045

**Arytenoid cartilage**

Arytenoid prolapse as consequence of cricotracheal resection in children, 210

Bilateral laryngeal pseudoparalysis in xanthoma disseminatum treated by endoscopic laser medial arytenoidectomy, 263

**Ascorbic acid**

Topical ascorbic acid reduces myringosclerosis in perforated tympanic membranes. Study in rat, 585

**Aspiration**

Unique presentation of bronchial foreign body in asymptomatic child, 495

**Atlantoaxial rotary subluxation**

Nontraumatic atlantoaxial rotary subluxation in pediatric otolaryngology patient. Report of four cases, 1137

**Atypical fibroxanthoma**, 985**Auditory nerve**

Myelination of human auditory nerve: different time courses for Schwann cell and glial myelin, 655

**Auricular exostoses**

Auricular exostoses among prehistoric population of different islands of Canary archipelago, 1080

**Authorship**

Criteria for authorship, 599

**Autofluorescence bronchoscopy**

Bronchial intraepithelial neoplastic lesions in head and neck cancer patients: results of autofluorescence bronchoscopy, 635

- Autoimmune ear disease  
Oral administration of collagen conjugated with cholera toxin induces tolerance to type II collagen and suppresses chondritis in animal model of autoimmune ear disease, 646
- Autologous fat injection  
Objective voice analysis after autologous fat injection for unilateral vocal fold paralysis, 229
- Bacteria**  
Bacteriology of adenoids and tonsils in children with recurrent adenotonsillitis, 844  
Microbiology of serous otitis media in children: correlation with age and length of effusion, 87
- Basal lamina  
Effect of furosemide on basal lamina anionic sites in guinea pig labyrinth, 283
- Bell's palsy  
Bell's palsy: electrodiagnostics are not indicative of cerebrospinal fluid abnormalities, 581
- Bifid epiglottis  
Bifid epiglottis associated with Joubert's syndrome, 194
- Biofilm  
Biofilm formation on voice prostheses: in vitro influence of probiotics, 946
- Bolus  
Accommodation to changes in bolus viscosity in normal deglutition: videofluoroscopic study, 1059
- Bone  
Aneurysmal bone cyst in sphenoid bone: treatment with minimally invasive surgery, 331  
Auricular exostoses among prehistoric population of different islands of Canary archipelago, 1080  
Bone conduction impairment in chronic ear disease, 437  
Chronic petrous apicitis with pericarotid extension into neck in child, 988  
Demonstration of intravital microfissures in undecalcified plastic-embedded temporal bones with prestaining technique, 749  
Effects of catecholamines on calvarial bone resorption in vitro, 682
- Book Reviews

- Botulinum toxin  
Adductor spasmodic dysphonia and botulinum toxin treatment: effect on well-being, 941  
Assessment of posterior cricoarytenoid botulinum toxin injections in patients with abductor spasmodic dysphonia, 406  
Botulinum toxin type A induces apoptosis in nasal glands of guinea pigs, 1045  
Evaluation of voice quality in adductor spasmodic dysphonia before and after botulinum toxin treatment, 627  
Treatment of postparotidectomy salivary fistula with botulinum toxin, 1162
- Brain stem  
Mapping of brain stem neuronal circuitry active during swallowing, 502  
Twenty-year report of first auditory brain stem nucleus implant, 103
- Branchial fistula  
Complete branchial fistula. Case report and review of literature, 1077
- Bulla  
Analysis of suprabullar and retrobullar recesses for endoscopic sinus surgery, suppl 186
- Bur  
Measurements of drill-induced temperature change in facial nerve during mastoid surgery: cadaveric model using diamond burs, 867
- Burn  
Malignant melanoma arising within burn scar. Case report and review of literature, 369
- Caloric vestibular test**  
Heat radiation during caloric vestibular test: thermographic demonstration in temporal bone experiments, 1041
- Cancer  
Bronchial intraepithelial neoplastic lesions in head and neck cancer patients: results of autofluorescence bronchoscopy, 635  
Comparison of CYFRA 21-1 and squamous cell carcinoma antigen in detecting nasopharyngeal carcinoma, 775  
Immunohistochemical analysis of small cell carcinoma of head and neck: report of four patients and review of sixteen patients in literature with ectopic hormone production, 76  
Involvement of level I neck lymph nodes in advanced squamous carcinoma of larynx, 982  
Local recurrences following transoral laser surgery for early glottic carcinoma: frequency, management, and outcome, 7  
Malignant carotid body tumors: report of three cases, 36  
Oncological results of endoscopic resections of Tis and T1 glottic carcinomas by carbon dioxide laser, 820  
Superselective embolization as palliative treatment of recurrent hemorrhage in advanced carcinoma of head and neck, 1126  
Thyroglossal duct carcinoma: large case series, 734
- Carotid body  
Malignant carotid body tumors: report of three cases, 36
- Catecholamine  
Effects of catecholamines on calvarial bone resorption in vitro, 682
- Cell  
Cell biology of laryngeal epithelial defenses in health and disease: preliminary studies, 1099  
Ciliary beat frequency in cultured human nasal epithelial cells, 1011

- Globosal basal cells are identified as proliferating cells in mouse olfactory epithelium, 53
- Immortalization of rat middle ear epithelial cells by adeno 12-SV40 hybrid virus, 132
- Stellate cells in human vocal fold, 319
- Central facilitation
  - Critical role of central facilitation in glottic closure reflex, 401
- Cerebrospinal fluid
  - Bell's palsy: electrodiagnostics are not indicative of cerebrospinal fluid abnormalities, 581
- Charcot-Marie-Tooth disease
  - Vocal fold paresis of Charcot-Marie-Tooth disease, 1072
- Cheilitis
  - Cheilitis granulomatosa Miescher: treatment with clofazimine and review of literature, 964
- Chemoreflex
  - Age dependence of laryngeal chemoreflex in puppies, 956
- Chest radiography
  - Pediatric tracheotomy: is postoperative chest x-ray necessary? 345
- Choana
  - Transnasal treatment of congenital choanal atresia with KTP laser, 335
- Cholesteatoma
  - Middle cranial fossa cholesteatoma following blast trauma, 1084
  - Transcanal atticotomy and transcortical mastoidectomy for cholesteatoma: Farrior-Olaizola technique revisited, 739
- Chondrosarcoma
  - Chondrosarcoma of nasal septum, 202
- Chylothorax
  - Bilateral chylothorax following neck dissection: new method of treatment, 381
- Cilia
  - Ciliary beat frequency in cultured human nasal epithelial cells, 1011
- Circulation
  - Aberrant internal carotid artery in middle ear, 892
  - Changes in permeability of striae vessels following vibration given to auditory ossicle by drill, 122
  - Malignant carotid body tumors: report of three cases, 36
  - Nitric oxide mediates platelet activating factor-induced microvascular leakage in rat airways, 83
  - Spontaneous dissection of internal carotid artery in its extracranial portion, revealed by hypoglossal paralysis: report of four cases, 794
  - Superselective embolization as palliative treatment of recurrent hemorrhage in advanced carcinoma of head and neck, 1126
  - Venous collateral blood flow assessed by Doppler ultrasound after unilateral radical neck dissection, 1055
- Clofazimine
  - Cheilitis granulomatosa Miescher: treatment with clofazimine and review of literature, 964
- Cochlea
  - Cochlear microphonic potentials: new recording technique, 565
  - Does cochlear nerve aplasia always occur in presence of narrow internal auditory canal? 388
  - Histopathology of cochlear implants in humans, 883
  - Long-term changes in off-lesion endocochlear potential after induction of localized lesions in lateral wall, 271
  - Morphometric analysis of age-related changes in human basilar membrane, 1147
  - Poly(adenosine diphosphate-ribose) synthetase inhibitor 3-aminobenzamide alleviates cochlear dysfunction induced by transient ischemia, 118
- Collagen
  - Oral administration of collagen conjugated with cholera toxin induces tolerance to type II collagen and suppresses chondritis in animal model of autoimmune ear disease, 646
- Complications
  - Angiotensin-converting enzyme inhibitor-induced angioedema: multicenter review and algorithm for airway management, 834
  - Intracranial complications of ethmoiditis evidenced by magnetic resonance imaging, 592
  - Is pressure dressing necessary after ear surgery? 254
  - Pediatric tracheotomy: is postoperative chest x-ray necessary? 345
- Composite tissue
  - Prefabrication of composite tissue for improved tracheal reconstruction, 849
- Corpectomy
  - Pediatric bilateral vocal fold immobility: role of carbon dioxide laser posterior transverse partial corpectomy, 723
- Cost analysis
  - Laser cordotomy versus radiotherapy: objective cost analysis, 312
- Cricotracheal resection
  - Arytenoid prolapse as consequence of cricotracheal resection in children, 210
- Criteria for authorship, 599
- Croup
  - Diagnosis of recurrent intermittent airway obstruction ("recurrent croup") in children, 600
- Curette size
  - Central incisor width as predictor of appropriate curette size in adenoidectomy, 841
- Cyclosporine
  - Effect of in vitro irradiation of donor larynges on cyclosporine requirements and rejection rates in rat laryngeal transplantation, 20
- CYFRA 21-1
  - Comparison of CYFRA 21-1 and squamous cell carcinoma antigen in detecting nasopharyngeal carcinoma, 775
- Cyst
  - Aneurysmal bone cyst in sphenoid bone: treatment with minimally invasive surgery, 331
  - Epidermal inclusion cyst versus thyroglossal duct cyst: Sistrunk or not? 340
  - Thyroglossal duct carcinoma: large case series, 734
  - Tornwaldt's cyst and magnetic resonance imaging, 895
- Cytokine
  - Detection of intracytoplasmic cytokines by flow cytometry in adenoids and peripheral blood lymphocytes of children, 442
  - Matrix metalloproteinase-1 and tissue inhibitor of metalloproteinase-1 gene expressions and their differential regulation by proinflammatory cytokines and prostaglandin in nasal polyp fibroblasts, 1129

**Data analysis**

Experience with StatView 5.0, 596

**Deep neck abscess**

Deep neck abscess: retrospective review of 210 cases, 1051

**Deglutition**

Accommodation to changes in bolus viscosity in normal deglutition: videofluoroscopic study, 1059

**Dehydration**

Relationship between transglottal pressure and fundamental frequency of phonation, with effects of dehydration produced by atropine, in healthy volunteers, 1066

**Dendritic cells**

Comparison of microanatomical distributions of macrophages and dendritic cells in normal and diseased tonsils, 173

**Development**

Age dependence of laryngeal chemoreflex in puppies, 956  
Complete branchial fistula. Case report and review of literature, 1077  
Fine structure of human newborn and infant vocal fold mucosae, 417  
Tracheal length of infants under three months old, 268

**DFNA10**

DFNA10 phenotype, 861

**Diving**

Vestibular findings in professional divers, 127

**Doppler ultrasound**

Venous collateral blood flow assessed by Doppler ultrasound after unilateral radical neck dissection, 1055

**Dressing**

Is pressure dressing necessary after ear surgery? 254

**Dura mater**

Long-term study of endonasal duraplasty and review of literature, 142

**Dysplasia**

Regression of laryngeal dysplasia after serial microflap excision, 811

**Ectopic hormone production**

Immunohistochemical analysis of small cell carcinoma of head and neck: report of four patients and review of sixteen patients in literature with ectopic hormone production, 76

**Edema**

Changing trends in angioedema, 701

**Editorial**

Criteria for authorship, 599

**Electromyography**

Bell's palsy: electrodiagnostics are not indicative of cerebrospinal fluid abnormalities, 581  
Intraoperative pediatric laryngeal electromyography: experience and caveats with monopolar electrodes, 524  
Lack of evoked laryngeal electromyography response in patients with clinical diagnosis of vocal cord paralysis, 815

**Embolization**

Superselective embolization as palliative treatment of recurrent hemorrhage in advanced carcinoma of head and neck, 1126

**Endobronchial tumor**

Endobronchial tumors in children: uncommon clinical entity, 63

**Endocochlear potential**

Long-term changes in off-lesion endocochlear potential after induction of localized lesions in lateral wall, 271

**Endolymph**

Effects of exposing opened endolymphatic sac to large doses of steroids to treat intractable Meniere's disease, 109  
Inner ear fluid volumes and resolving power of magnetic resonance imaging: can it differentiate endolymphatic structures? 113

**Endonasal approach**

Long-term study of endonasal duraplasty and review of literature, 142

**Endoscopy**

Analysis of suprabullar and retrobullar recesses for endoscopic sinus surgery, suppl 186  
Non-inflatable sterile sheath for introduction of flexible nasopharyngolaryngoscope, 385  
Pediatric laryngoscopes: design and application, 617  
Performance characteristics of fluorescence endoscope in detection of head and neck cancers, 45

**Endotoxin**

Effect of inhibitor of tumor necrosis factor- $\alpha$  on experimental otitis media with effusion, 917  
Role of interleukin- $1\beta$  in murine model of otitis media with effusion, 574

**Endotracheal tube**

Laryngeal mask versus endotracheal tube in ferret model, 827

**Epidemiology**

Epidemiological studies on hearing impairment with reference to genetic factors in Sichuan, China, 356

**Epidermal inclusion cyst**

Epidermal inclusion cyst versus thyroglossal duct cyst: Sistrunk or not? 340

**Epiglottitis**

Bifid epiglottitis associated with Joubert's syndrome, 194  
Epiglottic tuberculosis: differential diagnosis and treatment. Case report and review of literature, 197

**Epithelium**

Cell biology of laryngeal epithelial defenses in health and disease: preliminary studies, 1099  
Enhancement of submicroscopic damage of nasal epithelium by topical allergen challenge in patients with perennial nasal allergy, 236  
Globosal basal cells are identified as proliferating cells in mouse olfactory epithelium, 53  
Immortalization of rat middle ear epithelial cells by adenovirus-12-SV40 hybrid virus, 132

**Equilibrium**

Photochemically induced equilibrium dysfunction in hamster model with evaluation by means of new globe rotatory test system, 758

**Esophagus**

Effect of cigarette smoking on gastropharyngeal and gastroesophageal reflux, 190  
Esophageal motor function in laryngopharyngeal reflux is superior to that in classic gastroesophageal reflux disease, 1114  
Loss of secondary esophageal peristalsis is not contributory pathogenetic factor in posterior laryngitis, 152

**Eustachian tube**

Eustachian tube function in children after insertion of ventilation tubes, 1141

- Histopathologic study of temporal bone and eustachian tube in oculoauriculovertebral spectrum, 922
- Mucosa-associated lymphoid tissue in middle ear and eustachian tube, 243
- Transient inflammation and dysfunction of eustachian tube secondary to multiple exposures of simulated gastroesophageal refluxant, 928
- Volume of mastoid pneumatization: three-dimensional reconstruction with ultrahigh-resolution computed tomography, 486
- Exostoses**
- Auricular exostoses among prehistoric population of different islands of Canary archipelago, 1080
- Extracorporeal membrane oxygenation**
- Elective extracorporeal membrane oxygenation: improved perioperative technique in treatment of tracheal obstruction, 205
- Facial nerve**
- Facial nerve schwannoma: surgical excision versus conservative management, 1025
- Hypertrophic neuropathy of facial nerve, 257
- Fat**
- Electroglottographic and acoustic changes following type I thyroplasty or autologous fat injection, 1000
- Objective voice analysis after autologous fat injection for unilateral vocal fold paralysis, 229
- Retropharyngeal autologous fat transplantation for congenital short palate: nasometric assessment of functional results, 168
- Fibroxanthoma**
- Atypical fibroxanthoma, 985
- Fistula**
- Complete branchial fistula. Case report and review of literature, 1077
- Long-term study of endonasal duraplasty and review of literature, 142
- Perilymphatic fistula and Meniere's disease. Clinical series and literature review, 430
- Treatment of postparotidectomy salivary fistula with botulinum toxin, 1162
- Flap**
- Combined buccal mucosa island and sternohyoid flaps: new technique of hemilaryngeal reconstruction studied in canine model, 543
- Flow cytometry**
- Detection of intracytoplasmic cytokines by flow cytometry in adenoids and peripheral blood lymphocytes of children, 442
- Fluorescence**
- Performance characteristics of fluorescence endoscope in detection of head and neck cancers, 45
- Foreign body**
- Unique presentation of bronchial foreign body in asymptomatic child, 495
- Fungal infection**
- Fungal malignant otitis externa due to *Scedosporium apiospermum*, 377
- Furosemide**
- Effect of furosemide on basal lamina anionic sites in guinea pig labyrinth, 283
- Genetics**
- Chromosomal abnormalities in idiopathic congenital bilateral vocal cord paralysis, 624
- DFNA10 phenotype, 861
- Epidemiological studies on hearing impairment with reference to genetic factors in Sichuan, China, 356

  - Internet resources for otolaryngologists, web site only
- Respiration**
  - Activity of laryngeal afferents during respiration, evoked vocalization, and paralysis, suppl 187
  - Internal superior laryngeal nerve afferent activity during respiration and evoked vocalization in cats, suppl 187:3
  - Long-term monitoring of respiration with mediastinal pressure sensor in dogs, 215
- Rhinoscleroma**
  - Rhinoscleroma mimicking nasal polyposis, 290
- Rotatory test**
  - Photochemically induced equilibrium dysfunction in hamster model with evaluation by means of new globe rotatory test system, 758
- Saccular macula**
  - Three-dimensional analysis of morphological aspects of human saccular macula, 1017
- Salivary gland**
  - Histopathology of submandibular glands removed for sialolithiasis, 464
- Sarcoma**
  - Atypical fibroxanthoma, 985
- Scar**
  - Malignant melanoma arising within burn scar. Case report and review of literature, 369
- Schwannoma**
  - Assessment of vestibular schwannoma growth: application of new measuring protocol to results of longitudinal study, 326
  - Facial nerve schwannoma: surgical excision versus conservative management, 1025
  - Jacobson's nerve schwannoma: rare middle ear mass, 1030
  - Multicentricity of intraparotid facial nerve schwannomas, 871
- Screening**
  - Screening of olfactory function with four-minute odor identification test: reliability, normative data, and investigations in patients with olfactory loss, 976
- Sheath**
  - Non-inflatable sterile sheath for introduction of flexible nasopharyngolaryngoscope, 385
- Shunt**
  - Further experience with tracheojejunal shunt speech after pharyngolaryngoesophagectomy, 41
- Sialolithiasis**
  - Histopathology of submandibular glands removed for sialolithiasis, 464
- Sinus**
  - Analysis of suprabullar and retrobullar recesses for endoscopic sinus surgery, suppl 186
  - Concentrations of serum immunoglobulins and antibodies to pneumococcal capsular polysaccharides in patients with recurrent or chronic sinusitis, 675
  - Correlation between microbiology and previous sinus surgery in patients with chronic maxillary sinusitis, 148
  - Dynamic assessment of paranasal sinus ventilation using xenon-enhanced computed tomography, 968
  - Immunopathologic study of chronic sinusitis: proposal for atopic and non-atopic IgE-activated mast cell allergic inflammation, 447
  - Intracranial complications of ethmoiditis evidenced by magnetic resonance imaging, 592
  - Paranasal sinus ventilation in healthy subjects and in patients with sinus disease evaluated with 133-xenon washout technique, 667
- Sleep apnea**
  - Quantitative assessment of pharyngeal airway by dynamic magnetic resonance imaging in obstructive sleep apnea syndrome, 183
- Smoking**
  - Effect of cigarette smoking on gastropharyngeal and gastroesophageal reflux, 190

- Software Review**  
Experience with StatView 5.0, 596
- Somatostatin**  
Bilateral chylothorax following neck dissection: new method of treatment, 381
- Spasmodic dysphonia**  
Adductor spasmodic dysphonia and botulinum toxin treatment: effect on well-being, 941  
Assessment of posterior cricoarytenoid botulinum toxin injections in patients with abductor spasmodic dysphonia, 406  
Evaluation of voice quality in adductor spasmodic dysphonia before and after botulinum toxin treatment, 627
- Speech**  
Further experience with tracheojejunal shunt speech after pharyngolaryngoesophagectomy, 41
- Squamous cell carcinoma**  
Molecular markers in head and neck squamous cell carcinoma: their biological function and prognostic significance, 221
- Stapes**  
Intraoperative assessment of stapes movement, 31  
Short- and long-term results of stapedotomy and stapedectomy with Teflon-wire piston prosthesis, 907
- Stapler**  
Open Zenker's diverticulectomy using stapling techniques, 498
- StatView 5.0**  
Experience with Statview 5.0, 596
- Stellate cell**  
Stellate cells in human vocal fold, 319
- Stenosis**  
Acquired total (grade 4) subglottic stenosis in children, 16  
Anterior window laryngoplasty: new anatomic approach for posterior glottic and subglottic stenosis, 519  
Association of laryngopharyngeal reflux disease and subglottic stenosis, 606  
Concurrent glottic and tracheal stenoses: restoration of airway continuity in end-stage malignant disease, 349  
Congenital nasal pyriform aperture stenosis: diagnosis and management of 20 cases, 70  
Idiopathic progressive subglottic stenosis: findings and treatment in 52 patients, 305  
Laryngeal mask versus endotracheal tube in ferret model, 827  
Mitomycin: effects on laryngeal and tracheal stenosis, benefits, and complications, 1  
Prevention of anterior glottic restenosis in canine model with topical mitomycin-C, 1007  
Surgery for pediatric subglottic stenosis: disease-specific outcomes, 1109  
Tracheal reconstruction with synthetic material in porcine model, 718  
Transforming growth factor and neutralizing antibodies in subglottic stenosis, 393
- Stent**  
Duration of stenting in single-stage laryngotracheal reconstruction with anterior costal cartilage grafts, 413  
Evaluation of poly-L-lactic acid and polyglycolic acid resorbable stents for repair of tracheomalacia in porcine model, 993  
Management of displaced endobronchial stent using simultaneous endoscopy and tracheobronchography, 1165
- Sterile technique**  
Non-inflatable sterile sheath for introduction of flexible nasopharyngolaryngoscope, 385
- Steroid**  
Effects of exposing opened endolymphatic sac to large doses of steroids to treat intractable Meniere's disease, 109
- Streptococcus**  
Penicillin treatment failure in group A streptococcal tonsillopharyngitis: no genetic difference found between strains isolated from failures and nonfailures, 690
- Stria vascularis**  
Changes in permeability of stria vessels following vibration given to auditory ossicle by drill, 122
- Stroboscopy**  
Stroboscopic assessment of vocal fold keratosis and glottic cancer, 293  
Transillumination laryngoscopy: new way of evaluating vocal fold and hypopharyngeal lesions, 770
- Subglottis**  
Acquired total (grade 4) subglottic stenosis in children, 16  
Avoiding intubation in injured subglottis: role of heliox therapy, 713  
Idiopathic progressive subglottic stenosis: findings and treatment in 52 patients, 305  
Surgery for pediatric subglottic stenosis: disease-specific outcomes, 1109
- Subluxation**  
Nontraumatic atlantoaxial rotary subluxation in pediatric otolaryngology patient. Report of four cases, 1137
- Sudden hearing loss**  
Hearing improvement after therapy for hyperlipidemia in patients with chronic-phase sudden deafness, 105  
Long-term changes in off-lesion endocochlear potential after induction of localized lesions in lateral wall, 271
- Sudden infant death syndrome**  
Laryngospasm and diaphragmatic arrest in immature dogs after laryngeal acid exposure: possible model for sudden infant death syndrome, 729
- Swallowing**  
Accommodation to changes in bolus viscosity in normal deglutition: videofluoroscopic study, 1059  
Esophageal motor function in laryngopharyngeal reflux is superior to that in classic gastroesophageal reflux disease, 1114  
Mapping of brain stem neuronal circuitry active during swallowing, 502
- Synkinesis**  
Lack of evoked laryngeal electromyography response in patients with clinical diagnosis of vocal cord paralysis, 815
- Teflon-wire piston prosthesis**  
Short- and long-term results of stapedotomy and stapedectomy with Teflon-wire piston prosthesis, 907
- Temporal bone**  
Demonstration of intravital microfissures in undecalcified plastic-embedded temporal bones with prestaining technique, 749  
Histopathologic study of temporal bone and eustachian tube in oculoauriculovertebral spectrum, 922
- Thrombus**  
Photochemically induced equilibrium dysfunction in hamster model with evaluation by means of new globe rotatory test system, 758
- Thyroarytenoid muscle**  
Thyroarytenoid muscle: functional subunits based on morphology and muscle fiber typing in cats, 158

- Thyroglossal duct**  
Thyroglossal duct carcinoma: large case series, 734
- Thyroplasty**  
Electrolottographic and acoustic changes following type I thyroplasty or autologous fat injection, 1000  
Revision thyroplasty, 1087
- Tolerance**  
Oral administration of collagen conjugated with cholera toxin induces tolerance to type II collagen and suppresses chondritis in animal model of autoimmune ear disease, 646
- Tongue**  
Adenoid cystic carcinoma of base of tongue, 248  
Morphological and histochemical studies of genioglossus muscle, 779
- Tonsil**  
Bacteriology of adenoids and tonsils in children with recurrent adenotonsillitis, 844  
Comparison of microanatomical distributions of macrophages and dendritic cells in normal and diseased tonsils, 173  
Penicillin treatment failure in group A streptococcal tonsillopharyngitis: no genetic difference found between strains isolated from failures and nonfailures, 690  
Phenytoin-induced lingual tonsil hyperplasia causing laryngeal obstruction, 790
- Tornwaldt's cyst**  
Tornwaldt's cyst and magnetic resonance imaging, 895
- Totally integrated cochlear amplifier**  
Total implantation of active hearing implant TICA for middle ear disease: temporal bone study, 912
- Trachea**  
Elective extracorporeal membrane oxygenation: improved perioperative technique in treatment of tracheal obstruction, 205  
Evaluation of poly-L-lactic acid and polyglycolic acid resorbable stents for repair of tracheomalacia in porcine model, 993  
Pediatric tracheotomy: is postoperative chest x-ray necessary? 345  
Prefabrication of composite tissue for improved tracheal reconstruction, 849  
Tracheal length of infants under three months old, 268  
Tracheal reconstruction with synthetic material in porcine model, 718  
Tracheoesophageal puncture in office setting with local anesthesia, 613
- Transcanal atticotomy**  
Transcanal atticotomy and transcortical mastoidectomy for cholesteatoma: Farrior-Olaizola technique revisited, 739
- Transforming growth factor**  
Transforming growth factor and neutralizing antibodies in subglottic stenosis, 393
- Transillumination laryngoscopy**  
Transillumination laryngoscopy: new way of evaluating vocal fold and hypopharyngeal lesions, 770
- Transplantation**  
Effect of in vitro irradiation of donor larynges on cyclosporine requirements and rejection rates in rat laryngeal transplantation, 20  
Retropharyngeal autologous fat transplantation for congenital short palate: nasometric assessment of functional results, 168
- Trauma**  
Isolated vestibular areflexia after blunt head trauma, 562  
Middle cranial fossa cholesteatoma following blast trauma, 1084  
Transtympanic penetrating injury to internal auditory canal, 696
- Tuberculosis**  
Epiglottic tuberculosis: differential diagnosis and treatment. Case report and review of literature, 197
- Tumor**  
Endobronchial tumors in children: uncommon clinical entity, 63  
Safety and efficacy of transcervical resection of parapharyngeal space neoplasms, 1093
- Tumor necrosis factor- $\alpha$**   
Effect of inhibitor of tumor necrosis factor- $\alpha$  on experimental otitis media with effusion, 917
- Tympanic membrane**  
Eustachian tube function in children after insertion of ventilation tubes, 1141  
Topical ascorbic acid reduces myringosclerosis in perforated tympanic membranes. Study in rat, 585
- Ventilation**  
Dynamic assessment of paranasal sinus ventilation using xenon-enhanced computed tomography, 968
- Vertigo**  
Isolated vestibular areflexia after blunt head trauma, 562
- Vestibular system**  
Assessment of vestibular schwannoma growth: application of new measuring protocol to results of longitudinal study, 326  
Heat radiation during caloric vestibular test: thermographic demonstration in temporal bone experiments, 1041  
Isolated vestibular areflexia after blunt head trauma, 562  
Ligand-gated purinergic receptors are differentially expressed in adult rat vestibular periphery, 277  
Vestibular findings in professional divers, 127
- Vibration**  
Effects of length and depth of vibration of vocal folds on relationship between transglottal pressure and fundamental frequency of phonation in canine larynges, 556
- Videostroboscopy**  
Stroboscopic assessment of vocal fold keratosis and glottic cancer, 293
- Virus**  
Persistent measles virus infection and otosclerosis, 897
- Vocal fold**  
Characterization of medial surface of vocal folds, 470  
Chromosomal abnormalities in idiopathic congenital bilateral vocal cord paralysis, 624  
Fine structure of human newborn and infant vocal fold mucosae, 417  
Stellate cells in human vocal fold, 319  
Vocal fold paresis of Charcot-Marie-Tooth disease, 1072
- Volume**  
Volumetric and dimensional analysis of guinea pig inner ear, 91
- Waardenburg's syndrome**  
Otopathology in case of type I Waardenburg's syndrome, 875
- Web site**  
Internet resources for otolaryngologists, web site only

**Wegener's granulomatosis**

- Serum level of macrophage migration inhibitory factor as useful parameter of clinical course in patients with Wegener's granulomatosis and relapsing polychondritis, 1035

**Well-being**

- Adductor spasmodic dysphonia and botulinum toxin treatment: effect on well-being, 941

**Xanthoma disseminatum**

- Bilateral laryngeal pseudoparalysis in xanthoma disseminatum

- treated by endoscopic laser medial arytenoidectomy, 263

**Xenon**

- Dynamic assessment of paranasal sinus ventilation using xenon-enhanced computed tomography, 968
- Paranasal sinus ventilation in healthy subjects and in patients with sinus disease evaluated with 133-xenon washout technique, 667

**Zenker's diverticulectomy**

- Open Zenker's diverticulectomy using stapling techniques, 498
